MEMORANDUM

To: Council Members

AGENDA ITEM 7C10

From: Staff

Date: September 16, 2016 Council Meeting

Subject: Intergovernmental Coordination and Review Log

The Intergovernmental Coordination and Review process serves, in part, as an early warning system for the federal government to determine if a federally funded project or program is consistent with plans and ongoing community initiatives of local governments and the regional planning council. The review process is intended to inform the applicant of potential concerns or inconsistencies regarding the proposed activity. Council's statutory role is to coordinate the state's required review at the local level. Council has requested comments from potentially affected local governments in an effort to avoid duplication of efforts, funding, services, and to ensure the efficient use of resources. The attached Intergovernmental Coordination and Review Log presents a summary and recommendations on the following applications:
