

TREASURE COAST REGIONAL PLANNING COUNCIL

MEMORANDUM

To: Council Members

AGENDA ITEM 7

From: Staff

Date: June 15, 2018 Council Meeting

Subject: Continuing Services Agreement with the City of Sebastian

Introduction

The purpose of this item is to update Council on recent work completed under the Continuing Services Agreement with the City of Sebastian related to the Parks and Recreation Element of the Comprehensive Plan.

Background and Analysis

On April 21, 2017, Council entered into a Continuing Services Agreement with the City of Sebastian. The first task undertaken was an update to the Parks and Recreation Element of their Comprehensive Plan, along with associated land development code changes, mapping, and capital planning. Staff will provide a brief presentation on the steps taken to implement the project and discoveries made along the way.

Conclusion

Council staff has the ability to assist jurisdictions within the region on discrete planning projects, which allows limited local staff resources to be used for day-to-day operations. Enhancing planning and helping ensure the viability and livability of communities is consistent with the Strategic Regional Policy Plan and Council's mission.

Recommendation

For information only.
