**Subject:** All Aboard Florida Environmental Impact Statement

Dear Mr. Winkle,

This email is a follow up to Council's correspondence dated April 10, 2014 regarding the proposed AAF project (copy of this correspondence is included again with this email for your convenient reference). Council raised 3 requests for the consideration of the FRA.

1. Extension of public comment period on draft EIS from 45 to 90 days
2. Address of key issues related to project impacts as identified through Council's public outreach efforts
3. FRA workshop in Treasure Coast Region for local governments and agencies regarding EIS process

Please advise as to the status of these items.

Thank you.

Michael J. Busha, AICP
