A. Introduction

This appendix provides a County Economic Profile, Vulnerability Profile and a more detailed vulnerability analysis of critical facilities and corresponding maps.

B. County Economic Profile

This section of the report, and the data contained herein, is provided to capture a profile of the county including geographic and economic characteristics not previously discussed in Chapter I. In addition, many of the critical infrastructure partners including private sector and public utilities identified.

County Vulnerable Population Profile

County: Martin

Demographic Indicators

2009 County Population Estimate[1]- 12,533
65-84 Population[1]- 34,244
Live Births (3yr count)[1]- 4,041
85+ Population[1]- 6,647
% of Population 65+- 27%

Economic Indicators

Population Below Poverty[1]- 12,533
Average Monthly Medicaid Enrollment[1]- 8,618
Food Stamp Recipients[7]- 6,734
Uninsured (Under 65)[1]- 17,705
WIC Enrollment[1]- 3,289

Vulnerability Indicators

Population with 1 or more disabilities[2]- 25,082
Brain &/or Spinal Cord Injured Clients[5]-8
% of Population with 1 or more disabilities- 17%
Estimated Oxygen Dependent Clients- 3,517
Elders Living Alone[8]- 11,852
Elders with Dementia[8]- 7,527
Estimated Homeless[7]-507
CMS Clients[6]-361
Children in Foster Care[7]- 134
Medical Foster Care Children[7]- 1
Developmentally Disabled[4]- 342
Dialysis Clients[3]-92
Seriously Mentally Ill Adults[7]- 6,425
Seriously Emotionally Disturbed Children[7]- 2,013

Version 1 June 2009 1

D. Critical Facility Vulnerability Analysis

Considerable staff resources were expended to update the critical facilities inventory. Specific attention was paid to health care facilities such as hospitals and nursing homes; emergency response agencies, hazardous materials, mobile home parks, schools and colleges and community centers. Where possible, communications resources and community infrastructure /utilities such as water and waste-water facilities were located by latitude and longitude and overlaid on the storm tide limits map. Each facility has the name, location, lat/long coordinates, description, critical code and results of the 2010 surge analysis based on the most accurate topographic data and the SLOSH model.

The Critical Facility Inventory (Data base) includes a comprehensive list of critical facilities identified by the State and County Emergency Management Agencies. This inventory is not published as part of the report. However, selected facilities which may require evacuation or mitigation are identified in the tables and maps which follow. The tables indicate vulnerability from storm surge (based on the SLOSH model), freshwater flooding (based on the FEMA Flood Maps) and wildfire (Wildfire Interface/Levels of Concern).
